

6CER - Section 4 - Limitations of your Plan

Unit 6

Name: _____

Period: _____

Date: _____

You are tasked to write an essay communicating the problem you are trying to solve with the 50 Year Energy Plan and evaluate your design solution against others.

There will be four (4) sections of your essay:

1. Exploring Our Engineering Challenge (Claim)
2. Evaluating Competing 50 Year Plans (Evidence)
3. Reasoning about the Best Design (Reasoning)
4. **Limitations of your Plan**

At this time you should complete section 4, Limitations of you Plan. You should use your graphic organizer to complete this task.

Use the following outline and color coding to help format your essay

- What challenges do you envision in implementing your solution? Have you made any assumptions?
- What problems may still remain if your proposed plan is implemented?
- What technological breakthroughs might change your plan design? How might it change?

4. Construct your Limitations of your Plan below.
