

Device: Incandescent Light Bulb
Power Rating: 60 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Compact Fluorescent Light Bulb
Power Rating: 13 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: LED Light Bulb
Power Rating: 10 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Sony PlayStation 3
Power Rating: 85 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: XBox 360
Power Rating: 88 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Nintendo Wii
Power Rating: 14 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Sega Dreamcast
Average Power Draw: 30 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: 42" LCD Television
Power Rating: 210 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Laptop Computer
Average Power Draw: 30 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Clothes Dryer
Power Rating: 4,000 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Desktop Computer
Average Power Draw: 150 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Space Heater
Power Rating: 85 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Dishwasher
Power Rating: 1,200 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Window Fan
Power Rating: 50 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: DVD Player
Average Power Draw: 35 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Refrigerator
Average Power Draw: 75 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Hair Dryer
Average Power Draw: 1,600 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: Room Air Conditioner
Power Rating: 10 Watts

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: _____

Power Rating: _____

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: _____

Power Rating: _____

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: _____

Power Rating: _____

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: _____

Power Rating: _____

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: _____

Power Rating: _____

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.

Device: _____

Power Rating: _____

Energy Consumed in 2 Hours of Use: _____
Give your answer in Watt-hours.

Energy Consumed in a Month: _____
Give your answer in kilowatt-hours. Assume 2 hours of use a day and 30 days in the month.

Total Energy Cost: \$ _____
Use the cost of electricity at your school or home or your average state cost.
